

PUBLIC HEARING REPORT

F: Street A

APPLICANT: LJA Engineering

JURISDICTION: City of Houston ETJ

PRECINCT: Harris County Pct. 2

DISTRICT: None

PROPOSAL:

LJA Engineering – on behalf of Castlerock Communities, L.P. – is requesting the realignment of Minor Collector Street A on the Major Thoroughfare and Freeway Plan.

APPLICANT’S JUSTIFICATION and HISTORY:

Street A is currently unbuilt and is proposed as a Minor Collector with a 60’ ROW from Crosby Town Center Road to the west and FM 2100 to the east. The current alignment runs along property lines of Crosby High School and seven single family residences and would require all to dedicate ROW. The applicant proposes to shift the proposed collector roughly 500’ south to align with Spence Lane to the east. The applicant believes this would improve the connectivity of the undeveloped tract at the south end of Crosby Town Center Road while improving roadway spacing avoiding the encroachment on existing structures.

STAFF ANALYSIS

Population & Employment Projections

A demographic analysis using projections provided by the Houston-Galveston Area Council (H-GAC) was conducted for the MTFP amendment proposal area. According to the H-GAC data, the population of the surrounding area is projected to increase by 63 percent, at a faster rate than the City of Houston, but inline with the ETJ. Job density is projected to increase by less than 1 percent.

Land Use and Platting Activity

Land use along the existing alignment of Street A is single-family residential, undeveloped land, institutional and commercial. Commercial property largely exists along FM 2100. The requested alignment (Spence Road) runs through an existing single-family residential subdivision and undeveloped land.

Platting activity near the amendment is concentrated to the north, with smaller activity east across FM 2100 and south along Beaumont Highway. The most recent platting activity is listed below.
