FIRE PROTECTION FACILITIES

The Houston Fire Department is committed to providing a superior level of emergency service that continually improves the quality of life, health and safety of the people we serve--the citizens of Houston. Houston Fire does this by serving the Houston Community with Courage, Commitment and Compassion

The Fire program for the FY2010–2014 Capital Improvement Plan incorporates a three-point plan of new construction, renovation/rehabilitation, and relocation to expand and maintain its network of fire stations and facilities in support of its infrastructure. Property tax supported public improvement bonds at this time provide $38.3 million in funds and represents the major source of funding for the Fire FY2010 – FY2014 CIP.

Highlights of the Adopted FY2010 – 2014 CIP include:

- Completion of Stations Nos. 24, 37 & 90.
- The renovation of Fire Station 20 (damage from Hurricane Ike) and Fire Station 56.
- Continue improvements to our fuel systems at various fire stations.
- Continue the replacement and repair of various approach slabs, parking areas and driveways.
- Continuing the planning and design of fire station expansion projects.
- Complete the land acquisition for Fire Station 22.
- Design and expansion of Fire Station 20 by adding 2 apparatus bays and living quarters for Phase II of the Fire Station 20 expansion project.
