FIRE PROTECTION FACILITIES

The Houston Fire Department is committed to providing a superior level of emergency service that continually improves the quality of life, health and safety of the people we serve--the citizens of Houston. Houston Fire does this by serving the Houston Community with Courage, Commitment and Compassion

The Fire program for the FY2011–2015 Capital Improvement Plan incorporates a three-point plan of new construction, renovation/rehabilitation, and relocation to expand and maintain its network of fire stations and facilities in support of its infrastructure. Property tax supported public improvement bonds at this time provide $38.3 million in funds and represents the major source of funding for the Fire FY2011 – FY2015 CIP.

Highlights of the Adopted FY2011 – 2015 CIP include:

- The renovation of Fire Station 20 (damage from Hurricane Ike).
- Continue improvements to our fuel systems at various fire stations.
- Continue the replacement and repair of various approach slabs, parking areas and driveways.
- Continuing the planning and design of fire station expansion projects
