SOLID WASTE MANAGEMENT FACILITIES

The Solid Waste Management Department uses bond funds to maintain and preserve physical assets, improve and expand services to citizens, and efficiently manage environmental mandates.

Short and long term improvements totals , ensure continuous manageable solid waste disposal and recycling s ervices, especially in newly developed or newly annexed areas.

Recently the Department successfully completed the design and construction of the $4M House Hold Hazardous Waste Center located at 11500 South Post Oak Blvd.

Funding for the Solid Waste Management departments program is provided primarily through issuance of Public Improvement Bonds. The amount of spending projected for the 2011-2015 program tota ls $10.6 million in PIB.

Highlights of the Adopted FY2011 – 2015 CIP include:

- Kingwood Recycling Drop-off Facility
- Two New Neighborhood Depositories
- Infrastructure Improvements
